OUR MISSION

*To achieve excellence in fire prevention
and emergency service by maintaining
the highest standards in education,
training and dedication and believing in
the honor, sacrifice and duty of our
calling so that we will provide the
highest degree of safety and security to
our community.*

OUR VISION

*To be recognized by our community and
employees as an organization that:*

- ♦ *Is responsive to our community's
needs and concerns.*
- ♦ *Is a model of excellence in providing
emergency services in the Village.*
- ♦ *Is dedicated to continuous improve-
ment in the services we provide.*
- ♦ *Fosters an environment of trust and
involvement of our members and the
community.*

**HANOVER PARK
FIRE DEPARTMENT**

"**Sudden cardiac arrest** occurs without warning or within minutes after symptoms appear. More than 350,000 cardiac arrests occur outside of the hospital each year. The location of the out of hospital cardiac arrest (OHCA) most often occurs in homes/ residences (73.4%) followed by public settings (16.3%), and nursing homes (10.3%). If performed immediately, CPR can **double or triple** the chance of survival from an out of hospital cardiac arrest (OHCA). The 2023 Heart Disease and Stroke Statistics state that among the over 356,000 OHCA that occurred, 40.2% receive bystander CPR." (American Heart Association).

You have the potential to save a life.

The Hanover Park Fire Department, in association with the American Heart Association, is dedicated to teaching you the life saving skills you will need when witnessing a sudden cardiac arrest.

HEARTSAVER/AED

The Heartsaver/AED course is designed to teach CPR, the use of an Automatic External Defibrillator (AED), and what to do in the event of a choking emergency for victims of all ages. This class is highly recommended for new parents, babysitters, and anyone that wishes to help in the event of an emergency.

HEALTHCARE PROVIDER (BLS)

This course is designed to teach CPR skills for victims of all ages (including ventilation with a protective barrier device, the use of an AED, the use of a bag valve mask, and foreign-body airway obstruction). This class is intended for healthcare professionals, EMT students, nursing school students, childcare/daycare facility employees and DCFS participants. This class meets the requirements set by the American Heart Association, and is required to maintain most Professional Medical Licenses.

FIRST AID

This course will educate the Rescuer on three core modules with the option of a fourth:

- General Principles of First Aid
 - Medical Emergencies
 - Injury Emergencies
- Environmental Emergencies

These modules teach the public how to manage illnesses and injuries in the first critical minutes before professional help

CPR IN SPANISH

In an effort to make CPR training available for everyone, the Hanover Park Fire Department is able to teach Heartsaver/AED in Spanish. All materials are also available in Spanish.

Contact Rosa Gonzalez for more information.
